

## EXPERIMENT – 16

### OUTPUT:

```
Enter number of training samples:  
6  
Enter number of features:  
2  
Enter training data (features and class):  
1 1 A  
2 2 A  
3 3 A  
5 5 B  
6 6 B  
7 7 B  
Enter test sample features:  
4 4  
KNN Prediction: A  
Naive Bayes Prediction: B
```
